

NEW PARTNERSHIP

LANDSKROON GOT YOU COVERED

Lows of Dundee are pleased to announce a new partnership with Landskroon Technical Fabrics Division.

Landskroon have over 40 years' experience in dealing with technical textiles that are PE or PP based products. With the experience and manufacturing partners across the world, Landskroon have become one of the leading European experts and suppliers of Non-PVC products.

Lows of Dundee have added Landskroon **Tape Fabric Expert** as a standard stock line at our Blackburn Warehouse. This 200gsm woven coated Polyethylene has 300Kly of UV resistance and is available in a range of colours.

Shade Net 320 is also available in a range of colours. This 320gsm HDPE knitted tape netting has 300Kly of UV resistance is available as standard in a range of colours for shade sail manufacturing and other applications.

Horti Film Expert is a 220gsm LDPE coated Leno Weave, available as a translucent product as standard. Also incorporating 300Kly of UV resistance, this is a multi-use cover material.

Customer Specified Products can also be supplied using the network of factories and experience now available to us with Landskroon. Such orders are subject to minimum order quantities and lead times but, if you have a specific requirement in terms of specification or colour, we would be happy to discuss it with you.
